20 SUMMER CUSTOMER SUCCESS REPORT

PRODUCT INFORMATION MANAGEMENT SOFTWARE CATEGORY
PRODUCT INFORMATION MANAGEMENT SOFTWARE OVERVIEW

Once your organization’s system for keeping track of product inventory becomes inefficient, it’s time to turn to a Product Information Management (PIM) solution. By offering a centralized platform, PIM software manage an e-commerce’s services and products and consolidates data that might be spread across multiple channels, duplicated, or simply inaccurate. The result is essentially a virtual catalog for the entire organization to reference, utilize, and update. Not only will your organization then be able to improve high level of quality and performance, but also reduce manual processes, prevent inaccuracies, unify product content in a single system, and ultimately, improve customer conversion.
CUSTOMER SUCCESS
SCORING METHODOLOGY

The FeaturedCustomers.com Customer Success score is based on data from our customer success content platform, social presence, as well as additional data aggregated from online sources and social media properties. Our ranking engine applies an algorithm to all of the data collected to calculate the overall Customer Success score. The overall Customer Success score is a weighted average based on 3 parts:

Content Score is affected by the following:
1. # of vendor generated customer success content pieces (case studies, success stories, testimonials, and customer videos)
2. Content quality score generated from all customer success content
3. % Change in Content over past 6 months
4. Number of employees (based on social media and public resources)

Social Score is affected by the following:
1. # of LinkedIn followers
2. # of Twitter followers
3. # of Facebook likes
4. Number of employees (based on social media and public resources)
5. Engagement across all platforms

Company Score is affected by the following:
1. Number of employees (based on social media and public resources)
2. Vendor momentum based on web traffic and search trends
3. Employee satisfaction and engagement (based on social network ratings)
4. % traffic increase to your Customer References
5. Lower Funnel SEO Key Term Rankings

CUSTOMER SUCCESS AWARDS

Market Leader (85 - 90)
Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

Top Performer (81 - 84)
Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Leader.

Rising Star (75 - 80)
Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

TRUSTED BY:

“When we compare the way we made changes in the past to how we do it today, we are more than 30% faster…To this day, inRiver PIM provides great value and ROI.”

Peter Clark
VP of Information Systems, Jordan’s Furniture

“Before inRiver, we sometimes wondered how we actually managed to put products online. We had no way of really seeing what the status of our enrichment was. The QA used to be so difficult. We rarely had a clear picture of where we were within one season.”

Marie-Noel Gervais
VP of eCommerce and Marketing, La Vie en Rose

“We are experts at what we do, and now we do it even better. Product managers now input data into the system and marketing people make sure it reaches the right channels.”

Reidun stalberg
Marketing communications specialist, LK Group

“We save hours by using the PIM system. What previously took many hours to input now takes just a couple of hours.”

Gioele zanzico
Web project manager, Manfrotto Group

ABOUT SALSIFY

Salsify’s Product Experience Management (PXM) platform combines the power of product content management, a broad commerce ecosystem, and actionable insights — empowering brands to deliver compelling shopping experiences for consumers across every digital touchpoint.

TRUSTED BY:

“What’s key for us is while all our product information is in one place in Salsify, we can automatically generate and maintain customized product feeds appropriate to every channel.”

Seth Diamond
V.P. Ecommerce Division, Drive Medical

“We saved a person’s worth of time using Salsify. Their built-in digital asset management capabilities let me use my people on more productive tasks.”

Yoram Weinreich
Founder, Simpli Home

“What’s great about sharing a Salsify catalog with buyers is that the relationship extends beyond the life of the tradeshow. We can give buyers access to the most up-to-date product information.”

Bob Land
VP Consumer Engagement, Dorel Juvenile

“Our old format wasn’t consistent across all our products. Salsify has allowed us to structure our data in a more useful way.”

Sally Vandegrift Yeast
VP, Customer Experience & Analytics, Rawlings

ABOUT PERFION

Perfion is a 100% standard Product Information Management (PIM) solution for companies with a complex product structure or need for multi-channel, multi-language communication. With Perfion you get a single source of truth for product information which gives you control of all product data wherever they are applied. Perfion has a documented return on investment of less than a year.

TRUSTED BY:

"With Perfion PIM we manage the data of 50,000 products in an easy structure. New items and data can be added really fast. Perfion is a high-performing and reliable solution."

Jef De Meutter
CEO, dmlights

"With Perfion, the quality of the information will increase. We will also be able to bring new products to market faster and reduce the time required for gathering data. Perfion will become the central hub of all our product and item data."

Ronny Scholz
Commercial Director, erfal

"The best thing about Perfion is the inheritance functionality. When we create a new product, we only have to fill in four data fields. The rest of the information is already given automatically through inheritance. It saves us huge amounts of time not having to re-enter all data from scratch every time."

Marc Aron Bøgh Barnholdt
IT Manager, Trollbeads

"When you start working with the Perfion PIM system, you have to think thoroughly about the way you structure and organize your items. But soon it becomes like preparing your favourite food or driving a car: You just do it on autopilot."

Mario Van Swalm
Purchasing Manager, Tridis
